Chiropractic Services Fees/Financial Policy

Payment is expected at the time of service unless other arrangements have been made in advance.

Due to the numerous different types of health care policies and contractual arrangements, we are unable to publish what someone with health plan coverage will have to pay out of pocket. We participate as providers in most of the local health plans and Medicare, but coverage needs to be verified before we can tell someone what they will have to pay out of pocket to satisfy deductibles and co-payments. Our staff can help you with this verification.

We are able to publish a limited fee schedule based upon a time of service discount:

The basic fee for the initial visit, including medical history, examination and adjustment is \$64. Follow up adjustments are \$30. The fees quoted are not valid for services rendered through health plans with assignment of benefits.

These fees do not include charges for additional therapies or any appliances or supports dispensed. If services beyond the adjustment are needed and wanted they are thoroughly discussed with the patient before they are rendered. Additional services would also be subject to a time of service discount
