Clinical Nutrition Services Fees/Policy

Payment is expected at the time of service. On the following page we present our fees for Clinical Nutrition related services.

We do NOT bill a third party payer for Clinical Nutrition services. We will provide you with a super bill that you may present to your health plan administrator. They will determine your eligibility for coverage of these services and reimburse you based upon the contractual arrangement you have with them.

We do not represent that you will be able to get reimbursement; we hope that you would receive reimbursement and will provide diagnostic and CPT codes to assist you in that regard. Some of our testing may be considered investigational and not medically necessary.

The Clinical Nutrition part of our practice is separate from our Chiropractic practice. While we do accept assignments of benefits from health plans in our Chiropractic practice, we do not do so in the Clinical Nutrition portion of the practice.

The fees charged for laboratory services can change without notice as they are based upon what the laboratory charges us.
